NEWS OF THE MORNING.

The *America*, with Liverpool dates to April 26, arrived yesterday. She brings news of an advance and activity in Flour, and increased ease in the Money Market. Political intelligence unimportant.

South Carolina, that eminently aristocratic State, has resolved to send a Pierce Delegation to the Cincinnati National Democratic Convention. New Jersey, on the other hand, declines its preference for Buchanan.

The New Hampshire Know Nothings have repudiated the Fillmore and Donelson ticket.—The same party, in Massachusetts, has split in twain on this question.

Philadelphia city elects a Democratic Mayor and Common Council over the Know Nothing nominee.

Our Washington correspondent gives us a very readable letter this morning, and some items of interest to Milwaukee.

Commodore STOCKTON has come out in a letter, denouncing the repeal of the Missouri Compromise, and those who participated in the breach of faith.

Congress has been usefully occupied, for the last day or two, in considering bills for Harbor, River and other Internal Improvements.

"Squatter Sovereignty" having been assailed and ridiculed by Southern Democrats in the Senate, Gen. CASS proposes to speak in its behalf.

The De Bar Tragedy.

At the recent term of the Circuit Court for Washington County, Judge LARRABEE presiding, the following persons indicted for the Murder of George De Bar, by Lynching, on the 7th of August last, were put upon their trial:

Mathias Weiss, Joseph Immel, Jacob Muehr, Peter Immel, George Meyer, John Muehr, John Burkhardt, Frederick Knouth, Henry J. Herrin, George Will, Henry Bingenheimer, Hubert Reck, Wm. Zimmerman, Mathias Wilger, John Thode, Frederick Bourn, Joseph Heckel, and Anthony Ruschuff.

Mr. F. O. THORP, District Attorney of Washington County, assisted by Mr. H. L. PALMER of this city, conducted the prosecution, and Mr. H. C. ORTON, of Madison, appeared for the prisoners A motion, on the part of the prosecution, for a change of venue, was overruled by the Court on the ground that the Constitution did not warrant a change, on the application of the State. Some difficulty was experienced in empannelling a Jury, but the following persons finally qualified and took their seats:

Richard Lillecroft, Patrick Whalen, John Allbright, Henry Krueger, Casper Vadlone, Patrick Keown, Adam Spahler, George F. Fleischman, Charles Millbrath, Philip Schindler, Frederick Everly, Ludwig Myer.

The testimony was next introduced and a very strong case made out, according to the report in the Washington County *Democrat*, again to persons of the prisoners. The Counsel having summed up, the Judge directed the acquittal of F. Bourn, H. Bingenheimer, H. Reck, Geo Will, Mathias Wilger and John Thode, there being no evidence against them.

As to the rest, the Jury, being out from 4 P. M. Saturday to 1 A. M. Sunday, brought in a verdict of *Not Guilty*, on the ground that the evidence was at variance with the indictment. The indictment, it appears, charged the defendants with the murder of George De Bar by suffocation, strangulation, &c., by means of a rope round his neck. The Jury were of opinion that the evidence did not substantiate the fact that De Bar was *alive* when the rope was put round his neck. The testimony, as we read it, seems to be conclusive on this point *against* the prisoners, and it is impossible to doubt that bodily and personal sympathy had much to do with their acquittal. The murder of DE BAR remains unatoned for.

DISTRESS AT THE CAPE DE VERD ISLANDS.—A very interesting letter from an officer of the U. S. Ship *Jamestown*, (the same vessel that carried a cargo of bread-stuffs for Ireland some years since), details the dreadful suffering endured for a long time by the inhabitants of Cape de Verd Islands. The long continued drought, the writer says, has entirely consumed the living of the people, and during the past three years nearly 6000 persons have died of famine, and the prospect for the future is nothing less than death unless help is sent from Europe and America. It is hoped that the appeal for aid will not be disregarded, and our Government would do well, out of its overflowing means, to send the *Jamestown* on another errand of mercy. Such a deed would be more glorious than the capture of a Sebastopol.

MUCH AND ABOUT NOTHING.—The *News* of yesterday raises a *jubilate* over the election of A. F. PRATT, as President of Waukesha village, and sets it down as a triumph for BARSTOW, and a rebuke for the Supreme Court—these constituting just now the sole tests of Democratic orthodoxy. We are assured that local, not political issues controlled the village election in Waukesha; tho' we think the *News* excusable in making the most of appearances. It is in a line of business where "the smallest favors" are, as they should be, "thankfully received."

SPECIAL ELECTION IN CHICAGO.—An election for Water Commissioner was held in Chicago on Monday last. Mr. ASHTON was the "regular democratic" nominee, and the *Times*, the Douglas and Nebraska organ, called upon the party to sustain him as such. Nevertheless, his competitor, GEO. W. DOLE, beat him by *over thirteen hundred majority*.

The *Tribune* congratulates the City upon the result, aside from all party considerations, as securing the best man for the office.

THE ERIE R. R. TURNED EXPRESS AGENTS.—On the 15th of May it is said that the N. Y. & Erie Rail Road will go into the Express business on its own account, as is the practice and seemingly the policy of most of the European Rail Road Companies. They will deliver parcels and execute commissions at all points on their line, from New York to Dunkirk.

NEW YORK RAIL ROAD RECEIPTS.—The New York and Erie Rail Road is growing in favor and gaining in business. The receipts for April are reported, unofficially, at $655,000, which is very large. For the last few days they have averaged $20,000, per day. The March earnings of the Central Road show a falling off from last year, but April shows an increase.

NEW JERSEY FOR BUCHANAN.—The New Jersey Democratic State Convention, met at Trenton on the 6th instant, and made choice of a Buchanan Delegation to the Cincinnati Convention. New Jersey thinks kindly of Buchanan for his Federal antecedents and tariff doctrines.

BUFFALO CLEARANCES.—The steamer *Empire*; Brigs *Canopus* and *Greyhound*; and Schooners *Hurricane*, *Elva Logan*, *Wings of the Wind*, *Sophia Smith and Industrial*, cleared from Buffalo for Lake Michigan ports on Monday last. Several Propellers were to follow this next day.

SOUTH CAROLINA FOR PIERCE.—The South Carolina Democratic State Convention met at Columbia on the 5th instant, and elected a full delegation to Cincinnati, pledged to Pierce, Slavery, and Southern rights.

The Late James G. Percival.

The recent death, while engaged in the service of the State, of this eminent scholar and gifted poet, demands from the press more than the usual brief obituary notice. PERCIVAL was a native of Connecticut, born in 1795, one year after BRYANT, and in the same year with HALLECK and DRAKE. His poetical genius made itself manifest in his early years, and he was, from boyhood, a hard student. He entered Yale College at the age of 16 and was graduated, with distinguished honors, in 1815. His first volume of poems was published in 1820, and in the following year, his health being feeble, he went to Charleston, South Carolina, where he resided for some time. In 1822, having returned North, he took his degree as Doctor of Medicine, though he did not engage in practice. In 1824 he accepted an appointment as Professor of Chemistry at West Point and Assistant Surgeon in the Army, but finding the duties too onerous, he resigned his post after a few months' trial. During the next few years Literary pursuits engaged his attention. He assisted NOAH WEBSTER in the compilation of the Dictionary, translated MALTE BRUN'S Geography, and wrote frequently for the press. A visit to Europe at this period improved his health and inspired his muse. Shortly after his return, he was appointed with Professor SHEPARD, to make a Geological Survey of Connecticut—a work that occupied him for several years and added largely to his scientific reputation. In 1835 he came to Wisconsin, under an appointment from the American Mining Company, to examine and report upon their Lead Mines, in Grant County. While thus employed, he was tendered the appointment of State Geologist for Wisconsin, which he accepted, and in the duties of which he was seduluously engaged, when his constitution, naturally delicate and enfeebled by age, gave way under the labors and exposure incident to his office, and he sank quietly to rest.

PERCIVAL was a man of rare scholastic attainments, and, in his early years, of most attractive social qualities. As a linguist he had few equals, and as a poet, hardly a superior in America. But the sunshine which gilded and gladdened the morning of his life, became overcast as he approached manhood, and darkened and deepened into gloom as years wore on. A disappointment in an affair where all his heart and hopes were centered, embittered his life, impaired his intellect and sent him, weary and not unwilling, to a premature grave. We annex some stanzas written by him many years ago, in which the love which then filled his heart and animated his being, gushed out into melody and has embalmed, in never-dying verse, the "memory" of one, who, unhappily for both, failed to appreciate his worth, or return his affections.

MEMORY.

BY JAS. G. PERCIVAL.

There are moments in life which are never forgot,
Which brighten and bright as all time steals away;
They live a bright gem to the gloom of the heart,
And they shine on the gloom of the loneliest day.
These moments are hallowed by smiles and by tears,
Ph. first look of love and it first parting kiss,
All the rest in the lives of holy prayers,
And the cloud weeps still plows with the rainbow in this.

There are hours, there are times in life, which memory lumps,
Like blossoms of Eden, to twine round the heart;
And as Time rushes by on the night of his wings,
They but darken awhile, but they never depart.
O the seal of remembrance cannot decay,
But they come on the soul with a magic thrill,
And days that are dark seem, they know it to-day,
And the heart in its last throb will beat with the still.

They come, like the dawn in the cool skies long;
The same look of beauty that shone in my youth,
The sparkle of the mountain as it bleached in the snow,
And her eyes in the blue of the firmament both,
The roses are dim by her cheek's lovelier bloom,
And her coral lip pout, like the opening of flowers
Is more than though the air on a cloud of perfume,
Like the wind from the blossoms of heaven to hours.

From her cheek there no fire, there sparkles a flame,
That will light my young blood to the verge of my day;
Her speech—and the tones of her voice are the same,
As woos one, the first whisper, in melody there.
That to-night, as her hand rests in melancholy mine,
Sounds floating to my heart with electrical thrill,
Twin a prospect I dare with to see, even to-day,
And to-day life has, its sweets as well time to rue still.

We met—and we drank from the crystalline well,
That flows from the fountain of sorrow to one;
O the draught would it ought we would e'er talk thereof,
Tell us, should we ever meet sweet talking of love,
We parted—the tear-gl stood bright in her eye,
And her trembling hand shook, as I dropped it for-ever,
O, it seemed will always be hovering by,—
Like very from, but its blow shall all pain mo never.

The Game of the Maxtaw Know-Nothings.

A Village election came off in Waukesha on Tuesday. There was the usual amount of local excitement, and rather more, perhaps, than the usual quantity of local issues. There was a bridge question, a hog law, and other exciting topics up. The result was that Mr. A. F. PRATT obtained 25 majority for President over his competitor; and that most of those on the ticket with Mr. PRATT were likewise elected. Here upon the imaginative Mad-on *Argus*, seizing upon a straw to save it's drowning clique, issues the following *extra* in imposing type:

FROM THE Argus and Democrat Extra.

Waukesha Election—Democratic Victory—Sham-plain and Supreme Court Knaves—Pratt Ahead of the Field—Special Despatch to the Argus.

WAUKESHA, May 6.

Corporation Election resulted in the election of PRATT, as President, and the balance of the *Anti-Supreme Court* ticket by thirty in toto.

By way of illustration, we add an exact copy of what the truth-telling *Argus* calls "the Anti-Supreme Court ticket."

FIRST WARD—UNION TICKET.

Treasurer.
William F. Fero.
Marshal
M. J. O'Brien.
Assessor.
M. Sellars.
President.
A. F. Pratt.
Trustees.
John Burchard,
Charles L. Robinson,
Allen W. Hutch.

Of the above named we learn that only two or three voted for BARSTOW and that a majority sustain the Supreme Court! It is significant to remark that Mr. PRATT'S name is put in the middle of the ticket, instead of at the head, as the Candidate for President usually is, and that the heading is "Union Ticket." Out of such materials the Barstow Know-Nothings manufacture a great victory. Truly they are driven to desperate straits. A really strong party would scorn to stoop to such miserable artifices.

Land Grabs for Rail Roads.

The Mad-on *Journal* copies what we said about the proposed squandering of some millions of the Public Lands in this State upon private companies, for private uses and objects, and thus speaks its own mind on the question:

We heartily endorse the above. It has been our position from the first, respecting the policy of land grants to railroads. We believe them detrimental to the best interests of the State, a fruitful source of difficulty, and that a large majority of the people of Wisconsin not only desire no such grant, but are rigidly opposed to it. A few speculators will reap all the benefits, "the division of the spoils," and the settlement of difficulties arising thereupon, will occupy a large portion of the time of successive legislatures, should such a grant be made, and the people will have to foot the bill. We are able to build our own railroads, where they are really needed and will pay. Our people are heartily sick of these plots to throw the public domains into the hands of the few, for speculative purposes, under the plausible pretences of aiding internal improvements. They know it is all sham. It is unjust, undemocratic, and in contravention of our best interests. We hope the press of the State will reflect the real sentiment of the State on this subject, and not lend themselves to the service of the speculators who are at the bottom of this scheme.

☞ The *Sentinel* says that "most people have supposed that it was the Treasurer's, not the Governor's duty to 'watch' the money in the Treasury."

That is so, and "most people" have supposed just right about it.—*Madison Argus.*

Exactly. Which fact disposes of the twin fabrication of the *Argus* and *News*, holding GOV. BASHFORD responsible for the doors of the Treasury office being "left open" the other day.

From Our Washington Correspondent.

WILLARD'S HOTEL,
WASHINGTON, May 3, 1856.

A misapprehension appears to exist in the minds of some of our Racine friends as to the appropriation for the improvement of that harbor, and the course of your representative, Mr. WELLS, which should be set right. Mr. WELLS, in compliance with a rule adopted by the Committee on Commerce to report bills for harbor and river improvements, based upon the estimates of the Board of Topographical Engineers, was careful, at an early day, to obtain these estimates, and to insert the amount named by this Board, as requisite for the particular work, in the several bills introduced by him for the five Lake ports of Wisconsin. If the appropriation for Racine, therefore, is complained of as smaller than that for Racine or Kenosha, the decision of the Board of Engineers must be called in question, and not the course of Mr. WELLS, who went to the best source for information as to what was required, conforming in this only to the general rule established by the Committee. If the Racine gentlemen deem the appropriation inadequate, and can make it so appear, there will be little difficulty in amending the bill to their satisfaction, as Mr. WELLS will be glad, and prompt enough to do, the proper data being furnished to him by them, for no representative has been more watchful for the interests of his constituents in this respect, as well as in the application for a Marine Hospital at Milwaukee, a report in favor of which will be presented to the House at an early day. This much I have deemed it but due to Mr. WELLS to say, as I presume the information upon which he was held to account, was furnished in one of my letters to the *Sentinel*. On this subject of internal improvements, which will come up for action in the House early in June, when all the bills will be pressed together, the indications now are that the President will find it in his conscience to sanction many of the appropriations, tho' of course it is impossible to speak with any confidence on this head, stability not being one of the Presidential characteristics, and circumstances, moreover, such, for instance, as a coming Presidential election, altering cases. Still I have hope.

Mr. BRIDGMAN, of your State, has been welcomed back to his seat during the week, and brings good accounts of the general aspect of political affairs in Wisconsin.

The time of the Senate this week has been again mainly devoted to discussions upon the Naval Board and the Slavery Kansas questions—upon both of which, it is hoped, a decision will soon be arrived at. The Naval Board as yet has been heard from—with two or three exceptions—principally from the attacks of its opponents, who have dealt it, this week, some hard blows. Senators Bell, of Tenn., and Toombs, of Geo., were especially strong in condemnation, while Mr. Biggs, of N. C., took the other side, and will be sustained next week by the other friend of the Board.

On the Slavery question, Mr. Clay, of Alabama, made an elaborate speech, with great parade of statistical facts, in support of his ultra-Southern views. On Friday, Mr. Benjamin, of Louisiana, attracted a large audience to hear his remarks on the same side, directing his attention specially to Gov. Seward, and his declaration that "Slavery was an outlaw by the law of nature." This position Mr. Benjamin undertook to controvert by citing Justinian for the ancient, and the U. S. Supreme Court, for the modern, law on the subject. His speech was effective, eloquent, well prepared, and well delivered; but sadly on the wrong side, as I think will very clearly be made manifest when the discussion is renewed on the 12th of May, for which day it is assigned, (in the hope that the Naval Board will be disposed of in the meanwhile) and to be continued until a vote can be taken. Mr. Wade, Mr. Sumner, and other friends of freedom have given notice of their intention to speak on the question.

There was a very strong passage between Hale, of N. H., and Clay, of Ala., Friday—the former, in allusion to the speech delivered by the latter, having said that he could not be provoked into a merely personal controversy, and desired to make this only reply that it would be a long while before indignity could receive imbecility from contempt." This called up Clay, of course, who, for about twenty minutes, was as abusive and violent as the language will admit of, the Senate all the while sitting still without an interruption or a call to order. Hale's only reply was to correct a misstatement, in which he put his antagonist in a bad position, and took no further notice of his abuse.

The Shelbygan Joint Resolution, of which I wrote in my last, has passed the Senate, and requires the same only the signature of the President to make it a law—for which the citizens of Sheboygan may thank their lucky stars, as it is the first instance, I believe, where a Government appropriation of the kind has been turned over to the State authorities.

In the House, the most noticeable bills have been the balance of the River and Harbor bills, the new steamboat law, and the new Revenue law, which is a very important measure, certain to bring collection districts throughout the country and providing for the appointment and compensation of officers of the Customs.—These two latter have been set down for consideration early in June, and I presume will both pass, though the Revenue law, in particular, will provoke general discussion. The 9th section establishes the district of Milwaukee, embracing the "Western shore of Lake Michigan, so far as it forms the boundary of the State of Wisconsin, and all the waters of Green Bay, including within its limits all that portion of Wisconsin lying East of the river Wisconsin, above the town of Dekorra, and all East of a line running South from Dekorra to the State line, with all islands, bays, harbors, &c. Milwaukee shall be the port of entry, and Sheboygan, Racine, Kenosha, Green Bay, Manitowoc and Port Washington ports of delivery for said districts." The Senate has already passed this, the first chapter of the bill, which the House has preferred to consider in one lump, instead of in detached chapters as the Senate has done.

Judge Meacham, of Vermont, has made a very strong argument for the speedy admission of Kansas as a free State, with her present constitution and her present population, as justified by the precedents of seven other States, in whose cases the lack of sufficient population did not avail to retard their admission. The argument is a sound one, and such undoubtedly is the policy of the friends of Kansas, to insist upon her immediate admission as a State.

This would remove all excitement which is now so great, and the only objection is, one which American Statesmen at least should blush to acknowledge, that by so doing Kansas is ensured to be a Free State. It is Slavery, not Freedom, those gentlemen who oppose her admission would entail upon her—Slavery which they could not find it in their hearts, (those of them at least from the Free States), to fasten upon their own constituencies, but which they thus seek to fix upon their fellow-citizens in Kansas!

REV.

AN ACT TO REGULATE THE CROSSING OF RAIL ROAD TRACKS BY RAILROAD TRAINS.—The following Act has been passed by the Legislature of Iowa, and affords a good text for the preservation of life and property in the eastern as well as the western portions of the Confederacy. The Act "provides that trains shall come to a full stop before crossing, under the penalty of $500, half to go to the informer. If life or property is destroyed by violation of this act, the penalty is double the value of the property, or from $10,000 to $50,000 for life, to be recovered by the representatives of the deceased. The amount recovered to go to the widow and children, if any; if neither, to go as other personal assets."—*Buffalo Republic.*

The above is an abstract which we made of an excellent law passed by the Legislature of *this* State, at the late session.

Sharp Words in the Senate.

In the U. S. Senate on the 2nd instant, the Kansas question being under debate, Mr. BENJAMIN, of Louisiana, made a long speech on the Slavery side, and after pronouncing the Whig party dead, the Know Nothings only powerful for mischief, and the contest as narrowed down between the Republicans and Democrats, announced his intention of joining the latter:

Mr. CASS complimented Mr. Benjamin saying that the sentiment he had just uttered ought to find a response in every patriotic heart. His object in rising was to say that his friend from Mississippi (Mr. BROWN) had assailed "Squatter Sovereignty," his old friend, [Laughter,] and several of Brown's scathing weapons had hit him—[Laughter]. This "Squatter Sovereignty" he (Cass) call the right to self government. It was dear to our fathers of '76, and dear to their descendants of '56. He waited to see it from the most opposite quarters cast upon it, and asked the favor of the door on Thursday next for that purpose. [Cries—"Agreed!"—"agreed."]

Mr. BROWN in reply to that portion of Mr. Benjamin's remarks which respected himself, said the gentleman might have defined his own purpose in history and future cause without bringing him before the Senate and the country. Seven years ago when he entered the Senate, being aware that every word he said he was at the expense of time and money belonging to the country, he had announced that on no occasion, and under no circumstances, should any member draw from him a statement or word by which, independently of the measures he might stand or defended, it could be known whether he was a Whig, Democrat, or Abolitionist, or that he belonged to one party or another. He thought it unbecoming alike to elevate party, and give it a place in the history of the Senate. He had not risen to assign the objects or purposes of his public action. They explain themselves; if they do not, he was willing to rest under all the reproach which posterity might cast on him.

Mr. HALE, alluding to what, he said, were grossly personal attacks on him in Mr. CLAY'S recent speech, remarked that he had but one word to submit in reply—that it will take something besides indignity to redeem imbecility from contempt.

Mr. CLAY (springing to his feet, greatly excited)—I defy the Senator's malice as much as I contemn his baseness. No man shall assail my rights, or those of my constituents, and shirk his responsibility by skulking behind the plea of non-combatancy. If he were animated by those heroic feelings which he professes he would not come upon this floor, and, under the protection of its rule, seek immunity for his insolence. I know he is pleased by the attention. There are those of his class who, like the London Attorney, Mark Middle, in the play, are ambitious for a kick. (Sensation.) Mr. Clay concluded by remarking that he had nothing more to say to that Senator, having twice declined his acquaintance, and he asked a portion of the Senate for consuming so much time about a Senator who spoke the impact upon which he treads.

Mr. HALE replied that he had never sought an introduction to Mr. Clay but once, and that was on professional business for the benefit of a citizen of Alabama.

Mr. CLAY rejoined that he did not think his reputation for veracity would suffer by comparison with one who had repeatedly eaten his own words.

Mr. HALE replied that if he did eat his own words, he would have a more palatable meal than the Senator from Alabama, if he should undertake to eat his. [Laughter.] Adjourned till Monday.

THE AIR LINE ROAD TO FOND DU LAC.—The Washington County *Democrat*, in noticing a call for a meeting at West Bend in favor of the "Air Line Rail Road" to Fond du Lac, complains that the Milwaukee and Fond du Lac papers "keep most profoundly mum upon the subject." This is a very great mistake. All of the Milwaukee papers have had something to say of the project; have cheerfully published whatever communications or proceedings of public meetings have been sent to them; and no doubt will continue to do so, on an earnest of their good will toward the road. The Milwaukee press certainly does it full share towards helping along the various enterprizes and improvements in progress in the different parts of the State.

LOSSES OF THE PHILADELPHIA INSURANCE COMPANIES.—The Philadelphia *Bulletin* says that many of the losses by the great fire which occurred in that city on Thursday morning, fell upon Philadelphia companies. The principal offices lose as follows:

Franklin	$80,000
Pennsylvania	10,000
North American	25,000
Delaware Mutual	25,000

THE PEST OF DEMOCRATIC ORTHODOXY.—*The Union* is defending President Pierce from a charge of unfaithfulness to the South in the appointment of Mr. Reeder as Governor of Kansas. It says:

"A gentleman in Virginia calls our attention to the fact that the choice of President Pierce in the South has peculiar stress upon his appointment of Gov. Reeder as proof of his willingness to favor Free Soilers, and asks us whether, at the time of his appointment, Gov. Reeder was not regarded as a sound Democrat? It is in our power to answer this question with entire confidence and to say that down to the time that Gov. Reeder went to Kansas to assume the duties of Governor of the Territory, there had not been, so far as we ever heard, or as far as the President ever heard, a breath of suspicion as to his sentiments being Free Soil or Abolition sentiments. He was appointed under the strongest assurances that he was strictly and bonafide a national man. We are able to state further, on very reliable authority, that while Gov. Reeder was in Washington at the time of his appointment, he conversed with Southern gentlemen on the subject of Slavery, and *he avowed them that he had no more scruples in buying a slave than a horse, and he regretted that he had not money to purchase a number of slaves to carry with him to Kansas.* We have understood that he repeated the same sentiments on his way to Kansas. We will repeat what we have had occasion to say more than once heretofore—that no man has ever been appointed by President Pierce to office who was not at the time understood by him to be a faithful adherent of the Baltimore platform of 1852 on the subject of Slavery. If any appointments were made contrary to this rule, it was done under a misapprehension as to the positions of the appointees. We may add that the evidences of Gov. Reeder's soundness were so strong that President Pierce was slower than many others to believe him a Free Soiler after he had gone to Kansas. It is, therefore, the grossest injustice to refer to Gov. Reeder's appointment as proof of the President's willingness to favor Free Soilers."

We are not inclined to credit these stories so far as they affect Gov. Reeder, but they are certainly conclusive as regards President Pierce and the grounds on which offices are bestowed or withheld by our present rulers.—*N. Y. Tribune.*

WINNEBAGO RAILROAD.—A special meeting of the Directors of the Winnebago Railroad Company, was held in this city on Saturday evening last. Dr. B. S. Henning was chosen President of the Company, in place of Hon. John Fitzgerald resigned in consequence of a pressure of private business requiring his whole time, and which prevented his giving that attention to the duties of the station which the interests of the Company require.

N. Fletcher, Esq., was chosen Treasurer, in place of B. S. Henning, resigned.

We are informed that the contractors will commence work on the road near Ripon on Wednesday next.—*Oshkosh Courier.*

MR. FILLMORE ACCEPTS.—The Washington Organ of May 2nd, announces that a letter has been received from MILLARD FILLMORE in which he declares himself "at the service of his friends." His formal acceptance of the Know Nothing nomination is looked for in a few days.

LA CROSSE RAILROAD.—The location of the line of this road from Beaver Dam to Portage City, is at length definitely fixed. It is to cross the pond here, and take as nearly as possible an air line. Recent soundings of the pond by competent engineers has determined that there is not out of the channel of the stream, in any place, more than eleven feet of water where it is proposed to cross, and the company have therefore determined to grade their road the whole length, except perhaps about 40 feet at the channel, which will be bridged. This can easily be done, as there is a high bank on this side, close to the pond, which can readily be taken for that purpose.—*Beaver Dam Republican.*

NEW FLOURING MILL.—Messrs. Cook & Eliott of Burton, are erecting a flouring mill on the Milwaukee river one mile above that village. It is to contain two run of stone, and will be in operation the first of August next.—*Washington Co. Democrat.*

FROM UTAH.

Indian Depredations—Cold Weather—The Peculiar Institutions of Utah, &c.

Correspondence of the St. Louis Republican.

GREAT SALT LAKE CITY, March, 1856.

Mr. EDITOR.—The departure of Mr. Hockaday with the Eastern mail to day affords me an opportunity of writing direct.

Indian depredations continue, and stock had been driven off by them, and several persons have been killed. In some of the settlements partial measures have been taken to regain the stolen cattle, but the usual pacific policy of Gov. Young is likely to be maintained towards them until necessity compels an opposite course to be pursued.

A chief named Squash Head, who had been arrested on a writ issued by the U. S. District Court, cut his throat with a knife that had been given him to cut his bread and meat.

The weather is becoming more pleasant in this valley, which is the lowest in the basin, but in the other valleys and the mountains, the winter continues severe, with but little diminution of snow. A vast quantity of cattle have perished, and I am satisfied that I am fully justified in estimating the general loss of stock throughout the different valleys at fully two thirds, which is less than some estimate it.

The scarcity of forage and low condition of the stock will interfere materially with starting the contemplated Express between Sacramento (California) and the Missouri river, which was to have been put into operation during the spring, under the patronage and support of Gov. Young and the principal men in the territory.

The delegates chosen in the several precincts, last month, are to assemble in convention in this city, on the 10th inst, to adopt measures to consolidate and organize the different parties, preparatory to application into the Union as an independent State. This question will offer a nut for our wiseacres in Congress to crack, and let off a vast quantity of gas, while the religious portion will have an opportunity of exhibiting their horror of the "peculiar institution" legalized in Utah, which has Abolitionists display in reference to our southern "peculiar institution." As a State rights man of the Calhoun school, I consider that the people of a State or Territory have a right to adopt as many "peculiar institutions" as they choose, provided they do not conflict with the constitution of the United States. I maintain that a citizen of Utah has far more legal right to take and support a score of wives of about four score children, than the citizens of other States and Territories have in pursuing the "peculiar practice" which thousands are addicted to: for public opinion and law justify the one, while they are, or profess to be opposed to the other.

The scarcity of provisions, and consequent suffering which prevails, will have a tendency to drive off several in the spring who are "lacking in faith," if they can obtain provisions and cattle sufficient to take them to the States or California.

We had no mail from the East since the receipt of the October mail.

VOYAGER.

Democratic Extravagance.

The appropriations for the year 1852 made at the last session of Congress, under the Whig-elected Administration that went out of office in 1853, were $45,110,142 60. At the first dive made by the sham Democrats at the Treasury, after Pierce was elected, in the first session of the 33d Congress, these expenses of Government were run up nearly 50 per cent. They voted $65,107,981-62 to carry on the first year's administration of the party, whose ex rectified promises of economy and retrenchment, were still echoing from their leader's Inaugural in the Eastern portico of the Capitol.

Without a particle of advantage to the farmers and mechanics of the nation, these so called Democrats increased the expenses of our Diplomatic business abroad, in 1854, from the Whig figures in '53 of $1,120,000 to the enormous sum of $3,514,742 14.

Without a cent of benefit to the commercial interests of the seaboard States, and assuredly no advantage to the people of such grain exporting States as Indiana, Illinois, Michigan and Wisconsin, these plan-acting economists ran up the expenses of the Navy from $5,289,250 77 in 1853, to $12,510,503 16, in the last year after Pierce and they got hold of the Treasury keys.

Wasteful and profligate beyond example, these Sham Democrats spent from July 1, '54, to June 30, '55, exclusive of one dollar's payment on account of the Public Debt, the enormous sum of $57,000,000.

The next year their waste was greater. Congress appropriated for the Democratic Administration and for Democratic plunder, $71,220,846 91.

In no year in the great Washington's time, did the expenses of Government get up to $2,000,000. From March 4, 1789, to Dec. 30, 1791, the appropriations, exclusive of the public debt, were $2,797,153 60. In 1792 they were $4,540,274 55. In 1793 they were $1,757,300 75. It did not cost the greatest of all the Presidents, two millions a year to administer the Federal Government. The last of the Democratic Presidents has made it cost the people more than thirty one times as much. The expenses this year, exclusive of national debt paying, will be $70,470,816 91.

In 1813, the second year of our last war with Great Britain, the expenses of the Federal Government were only $20,913,971 05. This year, being at profound peace with all the world, the Democrats at Washington contrive to spend about three times as much of the public treasure.

In the year 1247-8, in our gigantic struggle in distant Mexico, with 50,000 men afield, a great navy afloat, and such costly drafts upon our resources as were Churubusco, Contreras and Molino del Rey, the then Administration at Washington spent but $29,757,398 69. This year with an army of only 15,000 men, and no war existing, the so called Democrats are peacefully squandering that sum not only, but thirteen millions on top of it. Can any nation long stand the combined extravagance, bad education in watchfulness, which this mal administration of official trust by the sham Democracy, is running the nation to with frightful speed.—*Albany Evening Journal.*

SAD ACCIDENT.—We regret to record the death, by drowning, at this place, on Saturday last, of Hubbell R. Wood, a promising and only son of Rev. Mr. Wood, an esteemed preacher at Shullsburgh, Lafayette County, in this State.

Young Wood was a student in the Lawrence University, and just ready to enter upon a College course. On Saturday, late in the afternoon, in company with a son of Sid. L. Rood, Esq., of Hubbell R. Wood, a promising and only son of Rev. Mr. Wood, an esteemed preacher at Shullsburgh, Lafayette County, in this State.

Young Wood was a student in the Lawrence University, and just ready to enter upon a College course. On Saturday, late in the afternoon, in company with a son of Sid. L. Rood, Esq., of Milwaukee, (a fellow student) he was amusing himself in a boat just below the First Ward bridge. By some means the boat was swept down into the current and became unmanageable. The young men became flight-ned, as the boat passed into the rapids just above the dam, and leaped over board, expecting the boat would follow. Wood reached Rood, as he was passing by the dam, but was unable to save Wood. Mr. McPherson, who was some distance below, hearing the outcry, an I seeing the boat drifting down, ran and plunged in, but too late! When but a few feet from land, young Wood sunk to the bottom.

The deceased was a young man aged but about 18 years, and was much esteemed by his associates.—*Appleton Crescent.*

MAN MISSING.—Mr Christian Pritchard has been missing since Sunday evening, April 27th, under circumstances which induce the belief that he was drowned. The last known of him, he left the house of his brother-in-law, on the west side of the river, on the evening above mentioned, to return to his family on the East side. A few moments after the time he left his brother-in-law's house, persons residing on or near the bridge, heard a splashing in the water, as of a man swimming. They hastened to procure a light, but before they succeeded in doing so, the noise was reported, after which nothing was heard. Search was instituted, but as nothing was discovered to show from whence the noise proceeded, it was attributed to some animal, and the matter thought no more of until Mr. C.'s absence was known. The correspondence of the time he was last seen, and the noise in the water, together with the fact that he is not in the habit of being absent from his family, induces the belief that he must have gone under the bridge, and by some mis-tep fell from the platform. The river was dragged on Sunday last but nothing found that would give the least clue to his fate.—*Watertown Chronicle*, May 7.

The Alleged Land Warrant Forgeries.

WASHINGTON, April 30.

The recent telegraph statement that forgeries of land warrants for one million acres had been discovered here, is wholly unfounded. A gang of forgers in these operations were detected in New Orleans some time ago, who had plans prepared for large issues, and perhaps to the extent represented; but their certificates and apparatus were seized by the authorities, and consequently the whole scheme failed. Frauds have doubtless been committed, but hardly with loss to the government. Individuals are the principal sufferers from forged assignments, which, with every precaution, can hardly be prevented. They were more frequent under the first acts ten years ago than now. The courts have held that there is no law for the punishment of forgeries of land warrants, and this decision encouraged depredations. Mr. McClelland has recently recommended an act covering this defect. The Government has information of contemplated frauds which may lead to important results; but the ends of justice require silence at present as to locality.—*Tribune.*

Waupaca County.

Much has been said of our county as one in which many advantages are combined to make it one of the many wealthy and important counties of Wisconsin. Waupaca county comprises 21 townships, fourteen of which are organized, and seven comparatively free from inhabitants, but fast filling up with hardy and enterprising settlers. It is now about six years since this county was purchased of the Menomonees, and but five years since this county was organized, and it now contains about 6000 inhabitants. This county is traversed, through most of the eastern part, by the Wolf River, which is navigable for steamboats, and on which a daily line of boats will be run the coming season, as high up as New London. This gives us the advantage of a speedy outlet for the surplus productions of our county, and a pleasant and cheap means for travel.—*Waupacaian.*

CHICAGO AND NEW BRUNSWICK.—THE PIONEER.—The *John Bay*, a schooner, sailed from Hamilton, U. C., for this port, on the 1st instant. This vessel is chartered by W. J. Gilbert, 16 La Salle street, and will sail with a cargo direct from Chicago to St. John's New Brunswick, and will bring a return cargo from that Province to this city.

This will be the first direct commercial communication between the upper lakes and the Maritime Provinces of Great Britain.

The *John Bay* will carry 12,000 bushels of corn through all the canals, and is chartered at 25 cents for outward and homeward cargo.—*Chicago Tribune of yesterday.*

THEATRE—FIRST APPEARANCE OF MISS SUSAN DENIN.—There was a good house at the Theatre, last evening, and the "Golden Farmer" was well played; Larkinsville as *Sammy Twitcher*, making a decided hit.

To-night, Miss SUSAN DENIN makes her first appearance in Milwaukee, as *Marianne*, in the favorite play of "The Wife." Miss DENIN ranks high as an actress and will no doubt attract a full house at Young's Hall to-night. The after-piece is "the Dead Shot," in which Miss EMILY THORNE sustains the part of *Louise* and LEFFINGWELL that of *Hector Tivoli*.

GREAT HAUL OF STOLEN PROPERTY—THE THIEF ARRESTED.—Yesterday morning, Policeman Capron overheard a conversation between two parties, in which it was stated that a quantity of clothing, stolen from a clothes line, had been recovered by the owner going to the suspected thief and demanding them. Acting on this hint, Policeman Capron went straight to the shanty indicated, commenced a thorough search, and discovered more than a dray load of ladies' wearing apparel, towels, napkins, sheets, table cloths, &c. The occupant of the premises, a woman, was immediately arrested, and the stolen property removed to the Watch House, where parties who have lost such articles are requested to call and identify them. The value of the property recovered is not far from $1,000. The woman, it is said, who fed, clothed and warmed, all last winter, at the public expense; drawing her regular weekly supplies of fuel, &c., from the Superintendents of the poor. A large sum of money was also found in her shanty. It was, no doubt, a "fence," or general receiving shop for stolen goods. The case will go before the Grand Jury, now in session.

FROM BELOW.—The propeller *Northern Michigan*, of the Northern Transportation Co.'s line, arrived yesterday from Ogdensburgh, being the first of the season fleet. Capt. Parker says that he saw a good deal of floating ice in Lake Erie, hard enough to go into an ice house. He states that the channel across the Flats is better, and better staked out than he has known it for years.

The propeller *Prairie State* is hourly expected, full of merchandize, a large portion for Bradford Brothers. The propeller *Young America* is also close behind, having passed Detroit on Sunday.

Mr. Tallmadge, agent of the American and Western Transportation lines, informs us that the *Oriental*, from Cleveland, is expected to lead their fleet, and may be in to-day.

VAN COTT'S JEWELRY STORE.—Our near neighbor, Mr. VAN COTT, has just received a large supply of rich Silver Ware, Watches, Jewelry, &c., from New York, which he has disposed of to the best advantage in his handsome and well filled store, and will be happy to show and sell to his customers. His stock is choice and large, and he himself a fair and civil dealer.

The *News* complains of the delay in opening Spring St. Bridge. Everything went well enough till we got a mere bridge tender. The old one was a capital one for the service, but he didn't vote for the right man for Alderman.—*Free Democrat.*

That is so. Nobody, an excellent and faithful Bridge Tender, was removed because he did not vote straight, and the public suffer the consequences.

SALES OF REAL ESTATE.—GEO. C. STEVENS recently sold his house and lot adjoining the Nunnery, for $2,000. He bought the house and lot one year ago for $650.

O. W. Gunnison has sold the house and lot next north of his residence, to Mr. Stevens, for $4,000. He paid $2,500 for it one year ago.

RESIGNATION OF JUDGE HUBBELL.—As there is no "sacred circle" to hedge in the divinity of the Circuit Court, we respectfully asked his honor, Judge HUBBELL, his reason for resigning. His reply was, that when elected, nearly six years ago, $1,500 per year, the Judge's salary, was equal to nearly double that amount at present, and that he could not live and support his family on so small a salary. Rents, provisions, &c., are *double* now what they were then.

OFFICIAL REPORT OF COMMON COUNCIL PROCEEDINGS.—The "official" account of the Common Council proceedings on the report of Alderman GRAVEN, from the Committee on Printing, says nothing about the overcharges in the accounts of the City Printers, which were stricken out by the committee as unjust, and so stated by the Alderman publicly when he introduced the report. Why this omission?

LAKE NAVIGATION CO.—Capt. ROBINSON, agent of this line, informs us that he will have his office with Messrs. JOHNSTON & OLMSTED, (late WM. BROWN & Co.), who are to be the consignees of the line. The superior class of vessels in this line, and the fact that the Company has its own tugs to take them up the rivers and over the bars, thus ensuring shorter trips than heretofore, will doubtless cause large shipments of freight by said vessels this season.

FURNITURE AT AUCTION.—WALL sells at auction, this morning, at the residence of Mr. WENDT, corner of Division and Astor Streets, all that superior Household Furniture. The sale commences at 10 o'clock. Mr. WALL is especially anxious to have the ladies attend; they are such spirited bidders, and great at making bargains.

MACK BROTHERS.—This old and well established firm invite the attention of our fair readers to the very large and tempting show of Dress Goods, Laces, Shawls, &c., which they are just, opening at their elegant store, No. 181 East Water Street.

NEW WHOLESALE GROCERY HOUSE.—See advertisement of Messrs. BOYNTON, MARTIN & Co., who succeed BARRY & KENNA, at 85 East Water Street, and offer a large and choice stock to their customers.

COOK AND HOUSE SERVANT WANTED.—A woman to do the Cooking and Washing in a small family can hear of a good place by applying at the *Sentinel* Counting Room. Good references required.

A FIRST RATE ACCOUNTANT.—The gentleman who advertises in our columns for a place as an Accountant is abundantly qualified, and brings the best of testimonials as to character and capacity.

REMOVAL.—Messrs. WELLS & BRIGHAM have removed their office to the "Law Buildings" on Wisconsin Street, as their card announces.

JUST RECEIVED a small assortment of the above named Pistols, together with the cap and ball for the same. These pistols are not only serviceable as a weapon of defence, but are admirably adapted for target exercise.

The cap, ball and powder are all together, and the Pistol can be charged in the same space of time required to place a cap on an ordinary Pistol. There is but little smoke or noise attending the discharge, at the same time the ball is thrown with sufficient force to do great execution. As the style of Pistol is only made with two sizes of bore, no difficulty will be experienced in procuring the caps to fit them.

We have also on hand a large stock of Colts, Allen's, Wesson's, Robbins & Lawrence's, Whitney's and other styles of revolvers and pistols of cheaper grades, all of which will be sold low. Call and examine our assortment.

CRAMPTON.

Great Auction Sale!

101 Lots for sale at Auction!

J. H. CRAMPTON will sell to the highest bidder, at Auction Rooms, on Wisconsin street, commencing on the 22d, inst., at 10 o'clock, A. M.,

One Hundred and One Lots,

being the subdivision of a part of Hubbard & Pearson's addition to the First Ward of the city of Milwaukee.

Terms of sale—¼ cash, the remainder in 1, 2, 3 and 4 years, at 7 per cent interest.

The above property is too well known to require puffing—it is located on one of the highest points on the Lake shore, four blocks west of the Post Office and on the eastern terminus of Division street, where sales are made daily at from four to five thousand dollars. Five minutes walk from the Court House, about ten to the Second Ward, and connected with the large manufacturing establishment of the Milwaukee and La Prairie and Horicon roads, by the Plank road bridge, which will be completed and ready for use by the middle of June next, and will open an avenue for a large amount of travel from the North, and make the streets upon which this property is located an important thoroughfare to the city. Water street is already graded to this point, with Cass, Marshall and Astor streets graded and planked sidewalks made to within one or two blocks, to be continued through to Water street and the new bridge during the coming season.

This is an opportunity that will never again be offered, to those having one or two hundred dollars to invest themselves a home, with *four years* to pay and low interest.

Maps will be in readiness for distribution in a few days.

Stand up, man! stand!
God's over all.
Why do you cringe to me,
Why do you bend the knee,
And creep, and fawn, and crawl?
Stand up, man! stand!
If I thought our English land
Had no true-hearted poor,
To suffer and endure—
At it hold themselves erect,
In the light of their own respect,
I'd blush that I was English born,
And ran away to the wilderness to free myself from scorn.

Stand up, man! stand!
God made us all!
The mine transcends the froth—
The living skin the cloth—
Both rich and poor are small.
Stand up, man! stand!
Free heart, free tongue, free hand,
Form foot upon the sod,
And eye that fear but God—
Whatever your state or name,
Let these prefer your claim!
If there be anything you want—
Speak up, we may respect a churl, but we hate a sycophant

WATERING FLOWER PLANTS.—Injudicious watering does more injury to house plants than is generally supposed. To prevent the soil having the appearance of dryness is an object of importance in the minds of many; they therefore water to such an excess, that the mould becomes sodden, and the roots perish. Others, to avoid the evil, give scarcely enough to sustain life.—This, however, is by no means so common a practice, for, in general, if anything appears to be the matter with the plant large doses of water are immediately resorted to, for an infallible restorative. This overplus of water will show its bad effects by the very dark color and flabby disposition of the leaves; but if the plant receives too little water, its leaves will turn yellow, and eventually die. The best plan is to allow the soil in the pot to have the appearance of dryness—but never sufficient to make the plant flag—before a supply of water is given, which should then be pretty copious; but always empty it out of the pan or feeder, in which the pot stands, as soon as the soil is properly drained. The water used for this purpose ought to be made about the same temperature as the room in which the plant grows. Never it use it fresh from the pump.

The public have a funny notion about printers. They think it costs nothing to puff, advertise, &c., and that one and another will sponge an extra paper, a puff, or some benevolent advertisement. They forget that this business makes them known. They forget that it is the printer's ink that makes nine-tenths of their immense fortunes. They forget that it takes money to buy ink, type, and paper, sometimes they forget to even thank you for working for nothing, by gratuitously puffing their business.

READ AND JUDGE FOR YOURSELVE

PROFESSOR WOOD'S Hair Restorative is no doubt the most wonderful discovery of this age or progress, for it will restore, permanently, grey hair to its original color, cover the head of the bald with a most luxuriant growth, remove at once all dandruff and itching, cure all Scrofula and other cutaneous eruptions, such as scald heads, &c. It will cure as if by magic, nervous or periodical headache, make the hair soft, glossy and wavy, and preserve the color perfectly, and the hair from falling to extreme old age. We could give the testimony of more than one hundred thousand to the truth of every word we have written. See circular and the following:

CAROLINE, Ill., June 29, 1855.

I have used Prof. Wood's Hair Restorative, and have admitted its wonderful effect. My hair was becoming, as I thought, prematurely grey; but by the use of this Restorative it has resumed its original color, and I have no doubt permanently so.

SIDNEY BREESE,
Ex-Senator United States.

VINCENNES, Ind., June 10, 1855.

Prof. O. J. Wood: Dear Sir—As you are about to manufacture extensively and send your recently discovered Hair Restorative, I will state for whomsoever it may concern, that I have used it and known others to use it; that I have for several years been in the habit of using other hair restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head from dandruff, and with one month's proper use will restore any person's hair to the original youthful color and luxuriance, giving it a healthful, soft and pliable appearance, without discoloring the hands that apply it, or the dress on which it drops. I would therefore recommend its use to every one desirous of having a fine color and texture of hair.

Respectfully yours,
WILSON KING

A gentleman of Boston writes to his friends in New Bedford, this:

To your inquiries I would reply that when I first commenced using Professor Wood's Hair Restorative, my hair was almost white, and had been so for the last ten years and it was very thin on the top of my head, and very loose and I did not freely; but I found that before I had used the second bottle my hair was right for by my hair was entirely changed to its original color (light brown) and is now free from dandruff and quite moist. I have had my hair cut five or six times since the change, and have never seen it appear like white hair starting from the roots, and it is now as thick as it ever was, and does not come out at all. It has proved in my case all that I could wish or ask.

Yours, &c.,

GARDNER, Me., June 22, 1855.

Mr. Dear: Dear Sir—I have used two bottles of Prof. Wood's Hair Restorative, and cheerfully say it is the greatest discovery of the age for restoring and changing the hair. Before using it, I was as gray as a man of seventy. My hair has now all much its original color. You can use my name if it is the world without the least fear, as my case was one of the worst kind.

Yours, &c.,
DANIEL N. MURPHY.

St. Louis, March 7, 1854.

Prof. Wood:—My hair commenced falling off some three or four years since, and continued to do so until I became quite bald. I tried all the popular remedies of the day, but to no effect. At last I was induced to try your celebrated Hair Restorative, and am happy to say, in doing so, my wishes were realized. I am satisfied those who use it will not regret it, as it gives the appearance of having been recently subject to the most luxuriant growth of beautiful hair to all who are desirous of having a beautiful head of hair.

I am, sir, yours, &c.,
J. STEWART.

DR. WEAVER'S

CANKER & SALT RHEUM SYRUP & CERATE.

IT IS AN INDISPUTABLE FACT THAT the above medicines are the only infallible remedies now before the public for cutaneous Eruptions, Salt Rheum, Erysipelas, Scald Head, Ringworm, Old Fever Sores, Scald Heads, Scorbutic Eruptions, &c., &c.

Cases that the most eminent Physicians have despaired of relieving, himself only yielded to the active powers of these wonderful remedies, when used with the directions which accompany each bottle, the Syrup and Cerate combined eradicates any of the above named diseases, and leaves the patient in a healthy condition. These medicines are not known to require anything more than a plain statement of facts. The joyful intelligence is being daily from East, West, South and South, of worn feeling ones they are given to.

See what is said by those who have used these medicines:

Prof. Sam. Bunnell Hemey, of Palmer, Mass., says, "they have done me more good than all the other medicines I have used for Erysipelas."

Capt. William Veal, of the steamer Granite State, says, "they have cured my daughter of Salt Rheum and Scald Head of six years' standing. She was literally covered with sores; is now perfectly cured by the use of the Syrup and Cerate."

Dr. A. J. Johnson, of North Wardsboro, Vt., says, "a Scrofulous disease of the hip joint, and Scald Head in the same child, have been entirely cured by the Syrup and Cerate."

Rev. Augustus Bullis says "it has cured the Salt Rheum in my boy."

J. Hatfield Fraser, Esq., editor of the Somerset Whig, Somerville, N. J., says, "my mother has been completely relieved of a severe case of Tetter of long standing, that had defied the skill of the best Physicians."

Hon. Joel T. Worth, of East Lyme, Conn., says, "I was completely cured of Erysipelas in my legs, after a consult of the best Physicians in the County had pronounced the disease incurable, (at my age which was seventy-eight years) by Weaver's Syrup and Cerate during the week I was under their treatment."

Elias Latham, Esq., of Orient, Long Island, N. Y., says "I hardly know how to express my gratitude to you and your medicines. I have been afflicted for more than thirty years with Salt Rheum in its worst form. I tried several Physicians in New York, Boston and Greenport. I have used your medicines enough to treat a person for that disease for a year, but they did me no good. Have taken your medicines one year, and am now able to work and sleep with out an ache or a pain, and my neighbors say I am the smartest man in the neighborhood."

The Rev. J. S. Swan, of New London, says, I have used the Syrup and Cerate in my family for more than a year and it contains the best remedies for the cure of Salt Rheum, Erysipelas, with an reputation that is attained for it. I have seen it used in a number of cases for Salt Rheum and Erysipelas, with an entire success."

Asa Smith Pribody, of Taunton, Mass., what the medicines will do; ask William Barker, of Three Mile Bay, Jefferson Co., N. Y., what the syrup has done for him; ask G. P. & W. H. Boynton, of Holbrookville, N. Y.; ask L. Kent, of Chicago, Ill.; ask Martha Cottle, of Martha's Vineyard, Mass; ask Wm. F. Keables, or Wm. P. Benjamin, Esqrs., of New London; ask H. Murdock, of Hallock, N. Y.; ask Mrs. A. J. Smith, of Brooklyn N. Y., who was cured of Scrofula, after losing his leg by the disease, and suffering for years, has been perfectly cured by the use of the Syrup & Cerate; ask Curtis Barrett, of Shelburn, N. Y., who has been cured of a severe case of Salt Rheum; ask Chas. Akin of Hume, N. Y., what the Syrup and Cerate will do for sore legs; ask Wheeler & Melvin, Merchants, Vergil, N. Y.
